“The Fundamentals of the business remain on-track despite the rescheduled timing of two of our anticipated Q4 programs, that we projected for the May/June timeframe. These programs are now being planned for Q1 2018. Overall, we continue to gain market share as indicated by the most recent Nielsen report May 20, 2017. Nielsen market share data for the 52 weeks ending May 20, 2017 xAOC (™eXtended All Outlet Combined), plus Convenience, (which includes Food, Drug, Mass, Dollar, Club and Convenience). Yowie reached .52% share versus .50% reported at the end of Q3 2017. This Nielsen data reflects Yowie’s share of the total front of store Chocolate segment plus Convenience, normally referred to as instant consumables (single serve).

Retail sales to our distributor in Australia are running ahead of expectations with Q4 Net Sales reaching approximately USD \$750k following USD \$1.2m in Q3 as accounts are beginning to re-order and new accounts such as K Mart are coming on line. Investment in a social media marketing campaign, for Australia, is underway to support the “Yowie IS Back” launch with consumers.

#### **Preliminary 2018 Outlook:**

**Looking forward to fiscal 2018 our current outlook for Net Sales growth is in the 55% to 70% range** for both US and non-US reflecting the pipeline fill in Australia in Q3/Q4 2017 and entry into Canada and one additional international market. We will continue to invest behind brand marketing in the low to mid-teens as a percentage of Net Sales via social media to increase brand awareness. **In fiscal 2018, we anticipate that we will achieve positive EBITDA and positive net profits in the second half of the year.** Additional details regarding fiscal 2018 will be provided in July with our Full Year/Q4 report.

“We remain confident regarding the prospects for the Yowie brand in both the US and selective international markets, and in our ability to grow rapidly in a highly competitive category. Our five key strategies: US and International expansion, talent development, innovative marketing, efficient manufacturing and longer term entering new categories remain our focus areas”, said Bert Alfonso, Global CEO. “As a young company, unfortunately any change by a customer to the timing of a planned program in any given quarter will have a significant percentage change on our business. However, having grown Net Sales from \$2m in FY15 to \$12.9m in FY16 to a projected \$20m FY17, we are outpacing all other brands in the confectionary plus space by a wide margin.
